

# Mechanical Slicing Machine

**newtech**  
— intelligent automation —

The **Mechanical Slicing Machine** is designed to portion baked **tray bake** products, such as shortbread, flapjacks, and brownies.

### Key Features

- Designed for industry standard 18" x 30" tray brake products such as shortbread, flapjacks and brownies.
- The length and cross cuts are performed by two cutting assemblies with the product automatically transferred between the cutting positions
- Interchangeable stainless steel blades, allowing for various portion sizes
- Remote access capability

### Services Required

- Single-phase electrical supply 16A, 230V, 1PH+N+E, 50Hz
- 6 bar Air
- Ethernet Connection for Remote Access

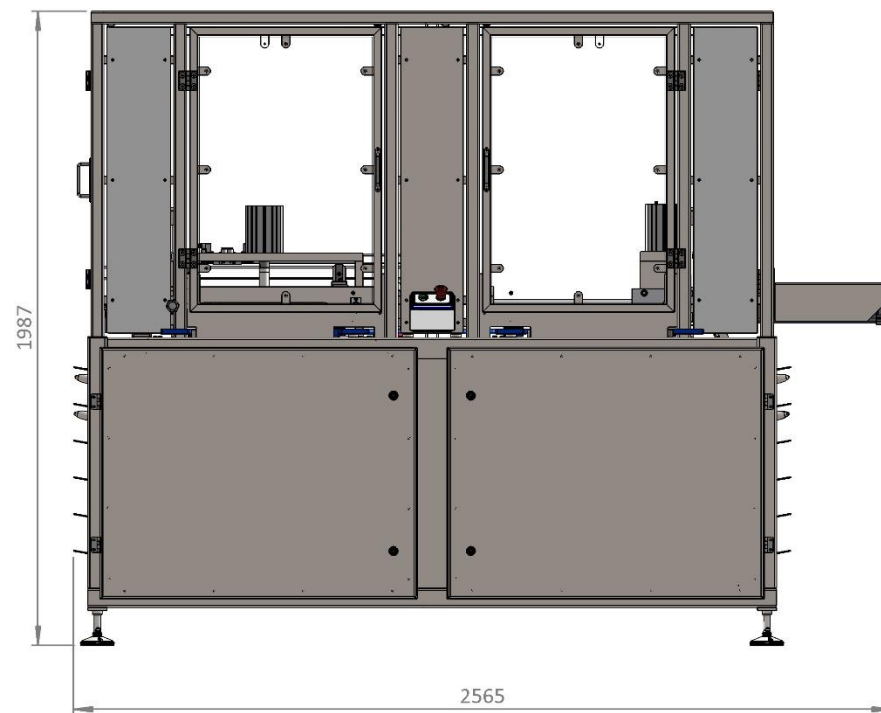

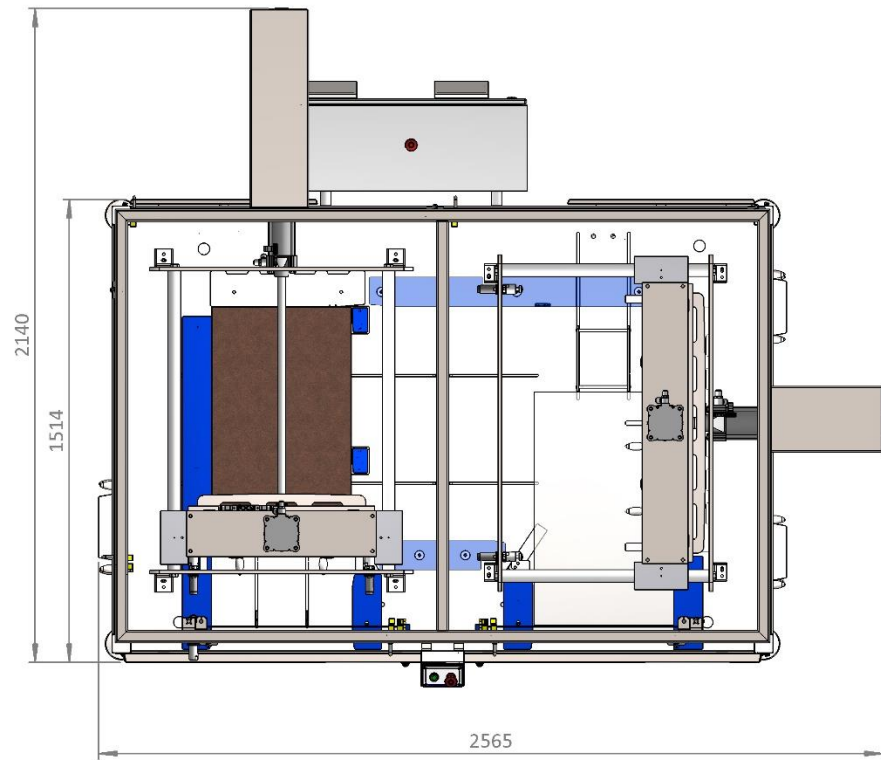

### Machine Dimensions (L x D x H)

- 2565 x 2140 x 1987mm

### Additional Features

- Fully Stainless Steel construction
- Clear PETG panels provide clear viewing of the cutting process
- Hygienic design
- Interchangeable blade assembly storage for quick changeover
- Colour HMI
