

RoboSONIC-Inline XL

Ultrasonic Slicing Machine

newtech
— intelligent automation —

The **roboSONIC-Inline XL** is a highly flexible, in-line robotic machine incorporating ultrasonic cutting technology. It is designed to portion **tray bake, round, and loaf** type products. With its larger than standard 760mm blade, the entire length of tray bake products can be sliced in one cut, ideal for customers with high throughput requirements. As a conveyor-based machine, it can be integrated into an existing line or used as a stand-alone solution.

Key Features

- Designed for cutting tray brake, round and loaf type products with high throughput requirements
- 6-Axis robot providing flexibility, reliability and accuracy
- Operated via full Colour touch screen with user friendly interface and easy-to-edit programs
- 3 user log in levels – Operator, Supervisor and Engineer
- 20kHz ultrasonic titanium 760mm wide blade
- Integrated cleaning tank with air-dry
- Remote access capability

Services Required

- Single Phase 230V 16A
- 6 bar Air
- Mains Water Supply for Cleaning Tank
- Ethernet Connection for Remote Access

Machine Dimensions (L x D x H)

- 3830 x 2352 x 2210mm

Additional Features

- Cut on the belt or on product boards
- Fully Stainless Steel construction & food grade plastics
- Quick-release conveyor belt for ease of removal
- Head change over available as an optional extra
- Also available with a mechanical blade
